To Whom It May Concern:

My name is Dr. Paul Kurian and I first met Mark Pittman in August of 2010 when I was searching for a new office to purchase and happened to come to a space which he represented for the seller. After looking at multiple locations, I decided on a project that Mark was not involved in. Even though he would not receive a commission on this purchase, he still helped me find the right lenders, architects, and contractors. Mark was also invaluable in helping me make the decision between buying a space vs leasing. His financial background was what made this possible. He even had a performa for me showing the differences in cost and savings in buying vs leasing a space. I was able to call him at anytime, and he would explain any questions I had and guide me in the right direction. Even the lender I am using was someone recommended to me by Mark!

If you are looking for medical office space, I would recommend working with Mark. What I like best about Mark is that he's honest and straightforward. He truly has the best intentions for the clients he works with and even the clients that he does not.

Sincerely Yours,
